Static Jesus

Shadow Project

Fear all people,
with their backs against the light.
With your face inside, inside their life,
with their backs against his light.
I can strike out at you,
wills are rolling over you,
with this light I cannot see,
wills are tearing into me.

It's wounded your fear.
It's changed in ways.
Now that static Jesus,
ah he doesn't hear.
That static Jesus,
he doesn't dream.

Fear all people you cannot see,
fear all people inside of me.
Where is the moon tonight?
Where is the moon?
Where is the moon tonight,
it's so quiet?

Static Jesus, he isn't real
Static Jesus, he isn't real

Static Jesus, fear me now.
Static Jesus, fear me now.

He's very cold, he's very old.
He's what lies are made of.
Static Jesus, fear me now.
He wants to take my God's love away.
He repeats himself all over again.
With greed and Hell he repeats himself.
With greed and Hell he repeats himself.

Static Jesus, I reveal you now.
He's blind, he blinds.
He'll blind you to real salvation.

Static Jesus, I reveal you now.
Oh Jesus, look what he's done.
Oh God, look what he's done.
He's poisoned all our love.
Oh Lord, look what he's done.
Static Jesus, I reveal you now.

Fear all people,
with their backs against his light.
Fear all people
with their face inside your life.
