

# A Public Execution

Shadows Fall

The end  
Spent my whole life dreaming  
Waiting for the end  
My end  
Gave myself no reason  
For the violence in my hands

Fuck the dreams I'm holding onto  
Fuck the path that lies ahead  
Fuck your ego  
Fuck your comfort  
Fuck it all until it's dead

Fuck it all (4x)

The time has come  
For you to pay  
For all you've done  
Our public execution  
Violence has come  
Until this revolution  
You will pay with your blood

Feel the failure  
It's easy for you to run  
Screaming  
Staring at the power of the god

Fuck the wings that lie before us  
Fuck the bloodbath has began  
Fuck excuses  
Fuck denial  
Fuck it all until it's dead

Fuck it all (4x)

The time has come  
For you to pay  
For all you've done  
Our public execution  
Violence has come  
Until this revolution  
You will pay with your blood

Your time has expired  
Destroying your empire  
Your time has expired  
Destroying your empire

Fuck the wings that lie before us  
Fuck the bloodbath has began  
Fuck excuses  
Fuck denial  
Fuck it all until it's dead

Fuck it all (4x)

The time has come  
For you to pay  
For all you've done  
Our public execution  
Violence has come  
Until this revolution  
You will pay with your blood

Your time has expired  
Destroying your empire
