

Dread Uprising

Shadows Fall

Reflecting on this life
Through the eyes of ancients
The wisdom of beyond
CHANT! Chant them down
DOWN! Into nothing
This power screams out from within
Like the trees that struggle towards the sun
Once again in due season we are reborn
Strike down the heathen. THIS MUST END
Swaying deeply in rhythm with the winds
There are eternal lessons within its pulse
Raising their false banners of hope
Lies everlasting
Fighting to save their self interest
DREAD UPRISING!
An end to it all
DREAD UPRISING
Watch as they fall
