

# Lost Within

Shadows Fall

Depression breeds like rats  
And turns your soul to black  
You no longer care that you feel nothing  
Bow down  
And serve your master  
Bow down  
Your life is mine  
Will you survive the day  
Or will you disappear and fade away  
Heard all you have to say  
Lost within the grey  
Your will has disappeared  
Breath in the soulless air  
An undead memory that's slowly fading  
Bow down  
Your life means nothing  
Bow down  
Your lost within  
Will you survive the day  
Or will you disappear and fade away  
Same lies told another way  
Lost within the grey  
You sacrificed all that kept you strong  
Changed your mind the minute things went wrong  
Turned away from what you created  
Bowed your head and served the ones you hated  
I thought I knew you well  
Now only time will tell  
Will you survive the day  
Or will you disappear and fade away  
Heard all you had to say  
Lost within the grey  
You're lost  
You're lost
