

Stupid Crazy

Shadows Fall

You may never know
What this all will mean to me
In our minds we create our own reality

Brushing past as worlds collide
The coloring of space in time

The stars give way
As the skies are colorful
Can we ever stop the bleeding
There's no embrace inside the colorful
Never let it go

Never let it go
Never let it go

The stars give way
As the skies are colorful
Can we ever stop the bleeding
There's no embrace inside the colorful
Never let it go

Embrace the peace and calm
As water fills the lungs
And vast the shade of deepest black
Has overcome

May we be tucked in under the art of sight
Slicing through the great divide

The stars give way
As the skies are colorful
Can we ever stop the bleeding
There's no embrace inside the colorful
Never let it go

Never let it go
Never let it go
