

Colorful

SHAED

Something colorful about me
Who I am and I'm gonna be
Who I was is a mystery
That's over now

Cry wolf in the dark
Knew you would come for me
Reach into my heart
Find something underneath

Fear of butterflies
Why are they standing out?
Wish I could face my doubt
Before I die

Something colorful about me
Who I am and I'm gonna be
Who I was is a mystery
That's over now

Something colorful about me
Who I am and I'm gonna be
Who I was is a memory
That's over now

Don't know where to start
Lost in the words you said
Place hope in a star
Hang it above my bed

Shadows come alive
Ghosts trying to bring me down
Know I can face them now
Before I die

Something colorful about me
Who I am and I'm gonna be
Who I was is a mystery
That's over now

Something colorful about me
Who I am and I'm gonna be
Who I was is a memory
That's over now

It's over
