

I Know Nothing

SHAED

Cold sweat on your body
Fresh tears on your face
But everything I say is bouncing off your brain
Clearly I know nothing at all

I know nothing
I know nothing
Clearly I know nothing at all

I know nothing
I know nothing

New lies every morning
More trouble at night
But I'm the crazy one for telling you to run?
Clearly I know nothing at all

I know nothing
I know nothing
Clearly I know nothing at all

I know nothing
I know nothing

Try to understand you
Say you gotta plan, true
But you don't stand a chance, fool
Clearly I know nothing at all

I know nothing
I know nothing
Clearly I know nothing at all

I know nothing
I know nothing

I know nothing
I know nothing
Clearly I know nothing at all

I know nothing
I know nothing
Clearly I know nothing at all
