

Maybe I Don't Know How

SHAED

If love's a drug I'm never high enough but I can fake it
When I feel the rush I know the two of us are gonna make it

I don't wanna burst this bubble
Put a pin in paradise
I just wanna take one bite of the apple in your eyes

Maybe I don't know how to let go
Don't know how to cut this rope
Baby I don't know how to let go
I'm still holding out for us to grow old

She's alright she's alright she know better
She's alright she's alright she know better
She's alright she's alright she know better
She's alright she's alright she know better

Time is dripping from my heart and I don't wanna waste it
Fruit is hanging from the trees and I just wanna taste it
We can change, we can rage like the weather
Spin around till we drown in forever
Wave goodbye as the light years slip away

Maybe I don't know how to let go
Don't know how to cut this rope
Baby I don't know how to let go
I'm still holding out for us to grow old

Maybe I don't know how to let go
Don't know how to cut this rope
Baby I don't know how to let go
I'm still holding out for us to grow old

She's alright she's alright she know better
She's alright she's alright she know better
She's alright she's alright she know better
She's alright she's alright she know better...
