

# Palm Trees

SHAED

I was living my dumb ordinary life  
Watching all the clouds go by  
Till you opened up my ordinary heart  
Now I can't believe my eyes

Things are moving  
Waving at me from the sky

Palm Trees. Swaying  
Watching over us like angels  
Moonlight. So bright  
Heaven opened up its gates for us tonight

Just imagine in another life  
You and I are butterflies  
And the wind is giving us a ride  
All the way to paradise

Palm Trees. Swaying  
Watching over us like angels  
Moonlight. So bright  
Heaven opened up its gates for us tonight  
Heaven opened up its gates for us tonight  
Heaven opened up its gates for us tonight
