

# Thunder

SHAED

Wherever you are

We walked up to the tower  
They looked down from above  
I never dreamed trouble could be coming from  
So few people

Wherever you are  
Let's get loud like thunder  
Know in your heart  
They won't drag us under  
They can blow, every brick we lay will make us stronger

All we heard was a whisper  
When they paid for a beating drum  
They never dreamed together we could make a sound  
That would drive them out

Wherever you are  
Let's get loud like thunder  
Know in your heart  
They won't drag us under  
They can blow, every brick we lay will make us stronger

Wherever you are  
Let's get loud like thunder  
Know in your heart  
They won't drag us under  
They can blow, every brick we lay will make us stronger

Wherever you are  
Let's get loud like thunder  
Know in your heart  
They won't drag us under  
They can blow, every brick we lay will make us stronger

Thunder  
Thunder  
Every brick we lay will make us stronger
