

# We Live We Die

SHAED

I remember the day so well  
Sitting in the back of the van  
Holding hands  
Till we cried  
Cause we realized

We're here we live and we die  
We say goodbye forever  
And we never come back  
But there's still a chance my dear

It was dark till I looked in your eyes  
Your face was covered in sunlight  
And the bright side was clear  
Cause I found true love right here

Where we live and we die  
And we say goodbye forever  
And we never come back  
But there's still a chance my dear

There's something better after  
You'll be mine forever  
You'll be mine forever  
You'll be mine forever  
You'll be mine forever

Cause we're here we live and we die  
We say goodbye forever  
And we never come back  
But there's still a chance my dear

There's something better after  
You'll be mine forever  
You'll be mine forever  
You'll be mine forever
