

You Got Me Like

SHAED

Lying in the grass
Drinking lemonade
This could last forever and I'm cool with that
Looking at the sky
Resting in the shade
We could stay together and I'm cool with that
Why can't we always be this way
Why do our bodies have to age
But since they have to I'm gonna love you the rest of my days

Cause you got me like ooo
No one got me like you
You got me like oo
No one got me like you

Let me see your glass
I know what you like
Sipping gin and tonic and were good all night
Never go to sleep
We don't even try
Rather lay awake in your arms all night
Why can't we always be this way
Why do our bodies have to age
But since they have to I'm gonna love you the rest of my days

Cause you got me like ooo
No one got me like you
You got me like oo
No one got me like you

Cause you got me like ooo
No one got me like you
You got me like oo
No one got me like you

Little bit of shade in the sunlight
(Heard you) brought another knife to a love fight
(I just) wanna get lost with the one I love
Take a little trip with the one I trust
But If we forget the good days
Let's drink it up to old age
Tu prends mon coeur, Je te protège
Dans cette vie, et même au ciel
