

# Catch Myself Some Rays

Shaggy

Now we're there from the snow  
You wanna take it somewhere where it's a little sun  
Shaggy

I'll go from London, Ontario  
Down to Montego Bay  
Or fly Toronto to Kingston  
To take a little break

And though I'm used to the weather  
Canadian all the way  
I want to fly to Jamaica  
To spend the holidays

Snow is fun  
But I want sun  
Gonna catch myself some rays  
Do it, uh

Well mi seh ain't nothing like Christmas inna JA  
Is one big party from night back to day  
Laying out on di beach while catching some rays  
Flip-flops on your feet, ain't no need for a sleigh

It's so lovely  
Yard vibes all the way  
It's so lovely  
Where the palm trees sway  
It's so lovely  
Best place to get away  
Ain't nothing like Christmas inna JA

I'll go from London, Ontario  
Down to Montego Bay  
Or fly Toronto to Kingston  
To take a little break  
How yuh mean?

And though I'm used to the weather  
Canadian all the way
