Hardly (Demo)

Shai Hulud

I am a memory
I never existed
And now I am nothing

Her name, a single word
Melts me, takes me to the ground
Only alive, can't she see
I'm destroyed by yesterdays

And do I gain?

I could only Dream
For chance to side with me
Inquire, ingest, implode
Let this not be the disassemblance of me
Another night with arms still empty

I'm destroyed

And do I gain?
Or just fall
