

# Sunshine

Shai

Tears of joy  
A brand new life  
Distant lovers before you came to me closer  
Let's go real fine  
What we have done  
We built this love exclusively  
There's no one like my

Sunshine  
My warm embrace  
You're my sunshine

Face to face  
I rest my soul  
Finally safe to say  
We're chasing what we started again  
I'll testify  
For all you've given  
You've listened to my ups and downs  
Thankful for each day and night  
Been away too long  
Gonna take you in my arms  
And hold you tight oh baby  
There's no one else but you  
That makes me feel the way you do  
There's a rainbow over here  
Oh sunny days don't go away

Sunshine  
My warm embrace  
You're my sunshine

Hey, sunshine  
Girl all that I'm feeling is you  
You mean the world to me  
You are the one  
And I need you

Sunshine I really love you

Sunshine  
My warm embrace  
You're my sunshine
