

## That Feeling

Shai

Everybody wants once in a while  
It's true I get the feeling  
Everytime I realize I'm fortunate  
I gets that feeling  
No bills to pay at all  
It's good to be living  
Little kids, outside on swings  
Out playing enjoying  
In the summer breeze

That feeling

Rainy days  
Fog and hazy  
We stay inside til the sun comes up  
It's too sad  
And watch you commence to my every command  
Relax, peace of mind

That feeling

When life feels so nice  
Makes everything you feel feel alright

Do you remember when you felt like it could be alright  
And wish you could have that feeling all the time  
Just go back into that place inside your mind  
Do you remember that feeling

That feeling

When you're next to me  
Bring me up when you're down
