

Resign

Shaka Ponk

And if you don't wanna resign
Join us in the fight
Join us in the fight, don't you worry 'bout it
It's not up to them to decide
Stand up by my side
Stand up by my side, don't you worry 'bout it

Such a masquerade on the news locos
When this politic and his fancy prose
Sells a lot of lies and I don't knows
Says a lot of lies and I don't knows
So many people played
"It's gonna be okay"
So many people pray
"We gonna find a way"
But the leader's plotting in the shadows
Sucking off the lobbies in the shadow

They're too scared to decide
Always acting like surprised
When the youth is going wild
When the young core is on fire

And if you don't wanna resign
Join us in the fight
Join us in the fight, don't you worry 'bout it
It's not up to them to decide
Stand up by my side
Stand up by my side, don't you worry 'bout it

No matter what they say, the only place to be
Is ruled by the forces of gravity
And there's nowhere else to go tontos
Well there's nowhere politico-tontos
So many idiots live on the radios
And everybody says what everybody knows
Says a lot of lies and I don't knows
Says a lot of lies and I don't knows

In that place above us all
Power people mystical
Fighting for the best buyer
When the whole store is on fire

And if you don't wanna resign
Join us in the fight
Join us in the fight, don't you worry 'bout it
It's not up to them to decide
Stand up by my side
Stand up by my side, don't you worry 'bout it

Everything's gonna be okay
We gonna make the rules, we gonna make money
Well, it's just another lie
Well, it's just another lie

Space and time might be relatively tied

But it's up to you, baby, if you don't wanna resign
Space and time might be relatively tied
But it's up to you, baby, if you don't wanna resign

And if you don't wanna resign
Join us in the fight
Join us in the fight, don't you worry 'bout it
It's not up to them to decide
Stand up by my side
Stand up by my side, don't you worry 'bout it
