Shaka Ponk

Me and my boy, we were drinking a juice in the Paris
He and the dogs came along and sat right next to me - he said
Let's share a line, let's share a line
You wanna feel high?
You wanna do it right?
Come on, come on

Hey little one what the hell's going on in your cabeza
Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down, get down down

Get down down down you bad bad, your flesh on the floor
Your soul in the air, leaving you there and flying out the door
Let me tell you about a guapa'
I knew, she was such a pretty little Heidy
But pretty little Heidy O'Ded
She was a lot like you, solo wanted to flip, just one more trip
But the trip is a trap
You never come back, you never come back
You're loaded, loaded, loaded, sweating a lot
You're loaded, loaded, sweating a lot
You're loaded, loaded, you're sweating a lot
You're loaded, loaded... sweating...

Sweating a lot, you're loaded, loaded, sweating a lot
You're loaded, loaded, loaded, sweating a lot
You're loaded, loaded, sweating a lot
I know you solo wanna feel
I know you just wanna feel
I know you solo wanna feel
I know you just wanna feel

Wanna feel all right
All right
Wanna feel all right
All right

Me and my boys we were dancing insane at a friend's
She and her toys came along and asked me for a thing
She said I need it baby, she said I need it deep
She said it makes me happy, and high I wanna be
So let's share a line
Let's share a line
You wanna feel it fine
You wanna do it right
Come on, come on

Hey little one what the hell's going on in ya head?
Hey little one what the hell's going on in ya cabeza?
Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down
Down down down...

Sweating a lot
You loaded loaded sweating a lot
You loaded loaded loaded sweating a lot
You loaded loaded sweating a lot
You know it tastes so good
You know it feels so fine
You know it got me going down
Just like it like it like it down
I know you just wanna feel
I know you solo wanna feel
I know you just wanna feel

Wanna feel all right
All right
Wanna feel all right
All right

Ya wanna beat down, get down down
Ya wanna beat down, get down down
Ya wanna beat down, get down down
