

Sky High

Shakatak

It's been a long, long time on easy street
In a sad hotel where the drifters meet
I got you, on my mind but you're far away
So, you won't know so your heart won't break

Gotta say temptations looking good
And the view of the city will set the mood
So we, steal a chance and take a ride
To a, different view of the neon signs

Now there's no going back, no going back

Take me up to the top and lets go sky high
To the 40th floor where we'll lose our mind
And then we'll, drown ourselves in whisky and wine
But it's the loneliest place in the world...

Is it dry martini or drink a beer?
Either way it will cloud all the guilt I fear
And it's only for one crazy night
I'll be home tomorrow to make things right

Now there's no going back, no going back

Take me up to the top and lets go sky high
To the 40th floor where we'll lose our mind
Can we talk this over one more time?
It's the loneliest place in the world...
