

Slow Dancing

Shakatak

The night draws in a coat of darkness
A candle flickers dying soon
We're still dancing here together
Is the daylight really breaking
One more drink before you go
I wish tonight could last forever

Slow dancing through the night
Slow dancing hold me tight
Slow dancing through the night
Till it's time for you to go

If only I could catch this moment
Hold the magic in my hand
But time is slipping through my fingers
The light comes creeping in my window
Through the curtain on tiptoe
And there upon your face it lingers

Slow dancing through the night
Slow dancing hold me tight
Slow dancing through the night
Till it's time for you to go

Slow dancing through the night
Slow dancing hold me tight
Slow dancing through the night
Till it's time for you to go
