

## Usual Situation

Shakatak

Usual situation, he couldn't think what to say  
It was never easy, the words get in the way  
Lookin' for a reason, to stop and ask her name  
But the chance disappears once again

Usual situation, if only they could meet  
She sees him every morning, just across the street  
She can't understand it, it's always just the same  
And the chance disappears once again
