

Doomed Entombed Exhumed with the rest of it  
Put on display for the PHD candidates  
To build a working model for where all the good times went  
And what was the point of it all

What a surprise you're never at a loss of words  
I guess you are what you eat  
What a surprise you end up in the lost and found  
What goes up comes down

How low can you go?  
Life is  
Love is  
Lost in  
Limbo

Nobody cheered when they called your name  
Rain or shine it's all the same  
To me  
To me  
To me  
Come close to me  
To me  
To me  
It's getting closer

What a surprise I'm never at a loss of words  
I guess I am what you eat  
What a surprise  
Oh you've really gone and done it now  
What goes up comes down

How low can you go?  
Life is  
Love is  
Lost in  
Limbo  
Nobody cheered when they called your name  
Rain or shine it's all the same  
To me

So let's give it up  
And start taking the high way  
How low can we go  
I guess I'll just give it on up and go find my own way  
Life is  
Love is  
Lost in  
Limbo  
Limbo  
It's getting closer
