

## Once In A While

Shakey Graves

So you wake up thirty-five  
With a child and a bride  
In time, I know, you've seen it all before  
But not on you, no, no, no  
No, I don't believe it's true

You say, "I've lived enough of famous nights  
All by my lone"  
And I would like to be the dark  
And I would want her, too  
Oh, baby, maybe  
Once in a while

So don't tell me  
I'll tell you  
Oh yeah I've been here for a while  
Oh the world ain't free  
No, the world ain't free  
But it always pays to fake a smile  
Oh yeah so save your money and wake up broke  
Yeah worry late or worry no (no)  
Oh oh write it down in a big old book  
Throw it under the bed and never look

You say, "I've lived enough of famous nights  
All by my lone"  
And I would like to be the dark  
And I would want her, too  
Oh, baby, maybe  
Once in a while

'Cause here in the big easy  
Yeah, I would like to be only here  
Once in a while  
From the bottom of the moon  
To the bottom of my glass  
It's not far  
Yeah, don't you see that I  
Have nothing better to do
