

# Was Here

## Shakey Graves

Did you hear the news  
Your dreams ain't coming true  
He can't really fly, he's hanging from a wire  
Oh woe is me, no one ever noticed he  
Was passing round the hat and preaching to the choir

Did you hear the news  
Nothing fun is good for you  
Hey we don't know a thing  
This man is just a liar  
Looks like the votes are in  
And nothing really matters when  
They're passing round the hat and preaching to the choir

I never felt so  
I never felt so  
Lowdown  
I never felt so  
Never felt so far from home 'til now

Oh did you hear the news  
Is there nothing we can do  
That old red white and blue has set the place on fire  
Stick to the tried and true  
We'll be okay as long as you  
Keep passing round the hat and preaching to the choir

I never felt so  
I never felt so  
Lowdown  
I never felt so  
Never felt so much 'til now

I never felt so  
I never felt so  
Lowdown  
I never felt so  
Never felt so far from home 'til now

I never felt so  
So lowdown  
So  
Oh I never felt so lowdown

I can break, I can bend  
I can say I was here when  
I can break, I can bend  
I can say I was here when  
I can break, I can bend  
I can say I was here when  
I can say I was here when  
I can say I was here when
