Come Back And Love Me

Shakin' Stevens

The things we had it goin'
You know you weren't showin'
They don't mean a thing, for me to keep track
Come back and love me
Come back and love me
Come back and love me
The way you used to do

Don't let me cry a tear
When I know you are not so near
You're hidin' and a seekin'
When you're for the keeps
Come back and love me
Come back and love me
Come back and love me
The way you used to do

Wooh c'mon Miss Dynamite
And Blow My Fuse Tonight
The way you used to do
Oooh relax and kiss me more
That I want for sure
What are you waiting for
I know you love me madly
So don't treat me badly
Who do you think you're kidding
When you know I'm not a fool
Come back and love me
Come back and love me
Come back and love me
The way you used to do
Ooh Come on back!

Don't let me cry a tear
When I know you are not so near
You're hidin' and a seekin'
When you're for the keeps
Come back and love me
Come back and love me
Come back and love me
The way you used to do

Wooh c'mon Miss Dynamite
And blow my fuse tonight
The way you used to do
Oooh relax and kiss me more
That I want for sure
What are you waiting for
I know you love me madly
So don't treat me badly
Who do you think you're kidding
When you know i'm not kiddin'
Come back and love me
Come back and love me
Come back and love me
The way you used to do

```
Come back and love me
Come back and love me
Come back and love me
The way you used to do

Come back and love me
Come back and love me
Come back and love me
The way you used to do
```
