

# Good Stuff

Shakira

Tell me all your wishes  
I am here to make them true, don't wonder  
You don't have to rub a lamp  
'Cause I'll take care of you

Nobody knows, nobody knows  
Nobody knows, nobody knows

Tell me what you think I'm one of your kind  
You know a girl like me is difficult to find  
I bet you've never seen nothing like this before  
I bet you've never met someone who loved you more

You know that I'm a witch and I can read your mind boy  
Where do I have to sign  
I'm on a board

My new resolution is to trust you  
My business to love you until you've had it  
I'm not gonna miss out on the good stuff  
The grass is much greener with us on it

Better than to sail on the Mediterranean Sea  
Better than to get a fancy Gucci dress for free

Don't think it over  
Think it over  
Don't think it over  
Think it over

Totally up to you what you do with me  
I'm gonna make it up to us and you will see  
Don't have to prove it, it is written in your eyes  
Tonight you'll be the winner I will be the prize

You know that I'm a witch and I can read your mind boy  
Where do I have to sign  
I'm on a board

My new resolution is to trust you  
My business to love you until you've had it  
I'm not gonna miss out on the good stuff  
The grass is much greener with us on it

Watch my body get lower  
As low as it can go  
All the boys will follow  
I'll show you something you don't know

Watch my body get lower  
As low as it can go  
All the boys will follow  
I'll show you something you don't know

Cause I know what you want  
And I like that

My new resolution is to trust you  
My business to love you until you've had it  
I'm not gonna miss out on the good stuff  
The grass is much greener with us on it

My new resolution is to trust you  
My business to love you until you've had it  
I'm not gonna miss out on the good stuff  
The grass is much greener with us on it
