

My Dynamite

Shakka

And I'm walking over seven seas
Making money over time
Being with you is just what I need
Baby you're my dynamite
Take a vacay on me
Me you and a midnight
Darling you're just I need
Baby you're my dynamite

Fam I don't even mind
I can have you all the time
Let's go Tokyo tonight
We can anime sometime
Onepunch man it's onsite
Thinking about your honey dipped thighs
Making me go [?] like ice, bankia

And there ain't nobody like you in my life
And they say you're back for me like a french fry
And I wanna run my hands around your waistline
Deeper in the valley with no light

And I'm walking over seven seas
Making money over time
Being with you is just what I need
Baby you're my dynamite
Take a vacay on me
Me you and a midnight
Darling you're just I need
Baby you're my dynamite

Don't tell lies
Should we run away sometime?
Are you a ride or die?
You'll be on a good good vibe
You got my temperature so high
Chotto matte kudasai
You can't replicate this high
When you're fucking with the tribe

And there ain't nobody like you in my life
And they say you're back for me like a french fry
And I wanna run my hands around your waistline
Deeper in the valley with no light

And I'm walking over seven seas
Making money over time
Being with you is just what I need
Baby you're my dynamite
Take a vacay on me
Me you and a midnight
Darling you're just I need
Baby you're my dynamite

Oh oh oh oh yeah
