Spaceship

Shakka

What makes me your prime target, woman?
Can you smell that sort of weakness on me?
Can you secretly become a different person everyday?
'Cus I like you more now then yesterday, yeah
(Could you do the same for me)
I've been surfing around this universe for time
Its so lonely out here (so lonely)
Its probably how you've got me into you
I'm whipped its true
But I don't care
'Cus I can chill

In my spaceship thinking of you
Facebook picture on my desktop slowly winking at you
I could chill in my spaceship thinking of you
Take your time when you play with my mind
(Could you do the same for me?)
It's a strange world in this box (box)
Yeah its a strange world in this box, yeah
In my spaceship thinking of you
Take your time when you play with my mind, yeah
Ahh Yeah

Stop provoking me (please)
We both realise we like each other you and I
Inquisitive talk there really is no need (yeah)
Then again you could like the trouble deep inside (oh why?)
'Cus you have to be aware of these others
You just click the profile and hover
Waiting for you to act stupid and laugh away
But now I think you kinda like the fact
That I'm immobilized and that
I'll soon crack when all eyes are on me (yeah)
(Ey)
This mansions large

Shakka Crown is what you call balling
Stay at home to stop heads from stalking
Its kind of long and hard
Wasn't any pun but now heads are talking
Shakka don't set no example for the kids
What they'll say to make things awkward
And then there's you, teasing my mind (mind)
I haven't had much intellectual excitement for time
Probably get locked up by merely talking to you here
My dear (my dear)
I'm stuck (stuck)
Its true but I don't care

Cus I can chill in my spaceship thinking of you
Facebook picture on my desktop slowly winking at you
I could chill in my spaceship thinking of you
Take your time when you play with my mind (yeah)
It's a blinking strange world in this box (box)
Its a blinking strange world in this box, yeah
In my spaceship thinking of you
Take your time when you play with my mind

(Mind, mind, yeah)

(Mind, mind, yeah)
