

Break The Ice

Shakra

Hold on
Don't say you're strong
Go on
But don't you run
You hide
From the twilight
And you find
The truth inside

I'll lead the way through the night

Come on and break the ice
We gotta break the ice
Because you are out of sight
I gotta hold on tight
We gotta break the ice

Go straight
And don't look back
Follow
The trodden track
Voices
Will mislead you
Scorn them
It is not true

I'll lead the way through the night

Come on and break the ice
We gotta break the ice
Because you are out of sight
I gotta hold on tight
We gotta break the ice

Unbreak the spell you are under
And see that you've been locked out
The world out there's full of wonders
Follow me, follow me

Come on and break the ice
We gotta break the ice
Because you are out of sight
I gotta hold on tight
We gotta break the ice
Uuh...

Come on and break the ice (come on and break the ice)
We gotta break the ice (uhh yeah)
Because you are out of sight
I gotta hold on tight
We gotta break the ice (We gotta break the ice, oh yeah)
