

Burning Heart

Shakra

They fake your hopes and dreams, they keep kings and queens at bay
And in the end they set the price you have to pay
And they decide for you and pretend it's your free will
I see right through the game and I will not give in

My burning heart, burning heart
It's a blazing, glowing spark
You'll never get my burning heart
My burning heart, burning heart
Is a fortress in the dark
You'd sooner get a broken heart
My burning heart

And they go all the way until you are under their control
And they say that the stake for your luck is your own soul
You are supposed to do everything for their big win
But I'm that kind of man that never ever will fit in

My burning heart, burning heart
It's a blazing, glowing spark
You'll never get my burning heart
My burning heart, burning heart
Is a fortress in the dark
You'd sooner get a broken heart
You'll never break
My burning heart

My burning heart, burning heart
It's a blazing, glowing spark
You'll never get my burning heart
My burning heart, burning heart
Is a fortress in the dark
You'd sooner get a broken heart
Yeah my burning heart, burning heart
Is a blazing, glowing spark
You'll never get my burning heart
My burning heart
