

## Into your Heart

Shakra

I'm on my way to somewhere  
Looking for paradise  
Someday I'll arrive

I cleansed my hands in water  
And surely payed my dues  
I know I'll survive

And I ride on, ride into the fire  
And I fly on, fly into the sun  
Now I'm holding on  
No matter where you've gone  
And I will ride on straight into your heart

I'll fight my bloody demons  
That try to block my way  
Glory's on my side

I know I'll win the battle  
My cause is right and true  
No need to hide

And I ride on, ride into the fire  
And I fly on, fly into the sun  
Now I'm holding on  
No matter where you've gone  
And I will ride on straight into your heart

And I ride on, ride into the fire  
And I fly on, fly into the sun  
Now I'm holding on  
No matter where you've gone  
And I will ride on straight into your heart

And I ride on, ride into the fire  
Into the fire  
And I fly on, fly into the sun  
Into the sun  
Now I'm holding on  
No matter where you've gone  
And I will ride on straight into your heart  
Uh, into your heart  
Into your heart
