

Is it Real

Shakra

One minute, one shot
We really touched the sky
We hit it with no limit
Hard on the borderline

We walked the strip in Vegas
We climbed the stratosphere
I met you, crazy Venus
Oh Lord, I'm stuck here
Oh Lord, I'm stuck here

Baby, is it real?
Are you really calling
Babe, it's what I feel
Am I really falling?
Baby, is it real?

Hot leather, cold drinks
Out in the desert sun
High roller, night crawler
I went out of my mind

I miss you stunning Venus
Your lightness for living
I learned the meaning of keenness
Oh please, let's turn back time
Oh please, let's turn back time

Baby, is it real?
Are you really calling
Babe, it's what I feel
Am I really falling?
Come on, come on
Baby, is it real?
Are you really calling
Babe, it's what I feel
Am I really falling?
Baby, is it real?

Wow, baby, is it real?
Ooh baby, is it real?
Now
Baby, is it real?
Are you really calling
Babe, it's what I feel
Am I really falling?
Come on, come on
Baby, is it real?
Are you really calling
Babe, it's what I feel
Am I really falling?
Come on, come on
Baby, is it real?
Babe, it's what I feel
Babe, is it real?
Am I really falling?
Are you really calling?

Baby, is it real?
