

Raise Your hands

Shakra

Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands

She was a teenage dream
Like in a movie scene
And when we went to town
Everyone turned around

We had a rock and rolled it
The devil's eyes
And the angels high above
And no time to care about

Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands

We didn't care at all
We'd rather have a ball
Free fall out of the sky
We thought we'd never die

We had a rock and rolled it
The devil's eyes
And the angels high above
And no time to care about

Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands

Can I raise your hands?
Can I, can I, can I raise your hands?

Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands in the air
Without touching solid ground
Raise your hands and I swear
That's the freedom that you'll find
Raise your hands
Raise your hands
Raise your hands
Raise your hands

Raise your hands
Raise your hands
