

# Right Between The Eyes

Shakra

I've been a fool, I see it  
You're not the friend I knew  
You know me well, you could do better  
A great show you pulled off my friend  
I almost missed the cue  
It's written on the wall in great big letters

Don't need you no more  
I made it on my own  
Right between the eyes  
I got the bullet of your sweetest lies  
Saw through your disguise  
Don't need you no more

I hope I learned my lesson  
My trust is hard to earn  
I won't be blinded by those slick words  
You need to prove to me now  
It's really what you mean  
And I won't be fooled just by what I heard

Don't need you no more  
I made it on my own  
Just myself to blame  
Duped by your smooth game  
Right between the eyes  
I got the bullet of your sweetest lies  
Saw through your disguise  
Don't need you no more

I should have known it better, I got myself to blame  
Fool me that one time the shame's on me  
If you fool me twice, then the shame's on you  
And surely all of them will finally see

I should have known it better, I got myself to blame  
Fool me that one time the shame's on me  
If you fool me twice, then the shame's on you  
And surely all of them will finally see

Don't need you no more  
I made it on my own  
Just myself to blame  
Duped by your smooth game  
Right between the eyes  
I got the bullet of your sweetest lies  
Saw through your disguise

Don't need you no more  
I made it on my own  
Just myself to blame  
Duped by your smooth game  
Right between the eyes  
I got the bullet of your sweetest lies  
Saw through your disguise  
Don't need you no more
