

## Sign In The Sky

Shakra

Come on my sweet longing  
Take me from a ride  
I know where we're going  
And I don't mind the night

Same old town, same dull street  
Same sad eyes, same old greed  
But a change will come and move me on  
I can feel it now - I'm ready to run  
Ready to run

There's a sign in the sky  
And as I'm reaching high  
I can feel I can make it tonight  
I've been waiting so long  
For a feeling so strong  
For a chance to walk into the light

Some believes in angels  
Others go insane  
Some say just be patient  
Till someone calls your name

I don't pray, don't pretend  
I won't wait until the end  
Now a change will come and move me on  
I can feel it now - I'm ready to run

There's a sign in the sky  
And as I'm reaching high  
I can feel I can make it tonight  
I've been waiting so long  
For a feeling so strong  
For a chance to walk into the light
