

# Something You Don't Understand

Shakra

These streets  
I'm gonna leave them  
I've had enough  
I ain't that tough  
Your light  
Leads me through cold nights  
I've had your hail  
Don't let me fail

It's more than I imagined  
It's more than I could realize  
It's something you don't understand  
Something you don't know about  
It's more than I could dream of  
It's more than I can really feel  
It's something you don't understand  
Something you will never know

Shine on  
I need your healing  
My time has come  
Now that I'm strong  
Reasons  
Don't need no reasons  
I've got it all  
I'm standing tall

It's more than I imagined  
It's more than I could realize  
It's something you don't understand  
Something you don't know about  
It's more than I could dream of  
It's more than I can really feel  
It's something you don't understand  
Something you will never know

Shine on  
Shine on

It's more than I imagined  
It's more than I could realize  
It's something you don't understand  
Something you don't know about  
It's more than I could dream of  
It's more than I can really feel  
It's something you don't understand  
Something you will never know  
It's more than I could dream of  
It's more than I can really feel  
It's something you don't understand  
Something you will never know  
You'll never ever know
