Wild and Hungry

Shakra

We pull the trigger
Though we should not
We're so much bigger
We scream and shout
And we walk the wire
Just stay out of our way

We are wild all night
Wild and hungry
We are wild
Wild and hungry
We are wild all night
Wild and hungry
We are wild
Wild and hungry
Wild and hungry
Wild and hungry

We start a fire
We wave the flag
And we bid higher
Lightning attack
And we steal your thunder
So don't try to fight back

We are wild all night
Wild and hungry
We are wild
Wild and hungry
We are wild all night
Wild and hungry
We are wild
Wild and hungry
Wild and hungry
Wild and hungry

We are wild all night Wild and hungry We are wild, (wild, wild) Wild and hungry We are wild all night Wild and hungry We are wild, (wild, wild) Wild and hungry Just stay We are wild all night Wild and hungry We are wild, (wild, wild) Wild and hungry Just stay We are wild all night Wild and hungry We are wild Wild and hungry Wild and hungry Wild and hungry
