

# Leave It All Up To Love

Shalamar

Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
Love will seek through

Tell me who people lie, people try  
To put that stuff in your head  
It's a shame more than pain  
That they send you through  
When you're trying to get ahead  
But when the gossip starts getting it down  
And you feel like your heart is in a lost and found

You've got to  
Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
And you will find that love will seek through

It's a fact all those cracks they can hold you back  
But there's a better way (there's a better way)  
Just keep on pushing, keep on pushing, keep on pushing  
For a brighter day  
And when the talks starts getting you down  
And you feel like your soul is in the lost and found

You better  
Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
And you will find that love will seek through

Any kind of strange  
Everyone complains about you being all alone and by yourself  
They'll tell you find somebody who's gonna give you love that's true  
And that's when the world will start to hit below the belt  
It's a fact all those cracks they can hold you back  
But there's a better way (there's a better way)  
Keep on pushing, keep on pushing, keep on pushing  
For a brighter day  
And when the talks start getting you down  
And you feel like your soul is in the lost and found

Got to  
Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
And you will find that love will seek through  
Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
And love will seek through  
Leave it all up to love  
Leave it all up to love  
Leave it all up to love  
And love will seek through
