

Some Things Never Change

Shalamar

Baby I'm so thankful that we're still together
For you're just full of affection
(You're my number one)
The love flowing in my direction
'Cause like the falls of Niagara, baby
Our love will always glow

I see there's some things that never change
Like when boy meets girl
These things never change
Said when you smile, hey baby
Some things never change
And I am so glad

Baby, as time goes on love may seem colder
And just when you think that it's over
(Love comes right back around)
Have no fear, just look over your shoulder
And like the Rock of Gibraltar, baby
I'll always be around

I believe that some things never change
Just like boy meets girl
These things never change
Like your smile when you smile
I know that some things never change
And I'm so glad that

Just our love
'Cause only we can make it
Happen, keep love growing
Hand in glove
We make the perfect combination
Just like Gable and Lombard

Some things never change
Some things never change
I'm so glad some things never change
Some things never change
I'm so glad

I'm so glad

Baby, as time goes on love may seem colder
And just when you think that it's over
(Love comes right back around)
Have no fear, just look over your shoulder
And like the Rock of Gibraltar, baby
My love will always be around

I believe that some things never change
Like when boy meets girl
These things never change
Like your smile when you smile
I know that some things never change
And I'm so glad

Just our love
'Cause only we can make it
Happen, keep love growing
Hand in glove
We make the perfect combination
Just like Gable and Lombard

Some things never change
Keep that feeling
Love will always remain the same
Some things never change
And this gonna last
I'm so glad some things never change
I'll still think that
Going that rain on our parade
Some things never change
So that's love we have

I'm so glad some things never change
Keep that feeling
Love will always remain the same
Some things never change
And this gonna last
I'm so glad some things never change
I'll still think that
Going that rain on our parade
Some things never change
So that's love we have

I'm so glad some things never change
