

Jungle

Shallipopi

Voice of the jungle, and ghetto youth
If a nigga touch my brother then my nigga shoot
I don't ever bother, I don't got nothing to prove
Just fight for yourself don't put yourself in my shoes (yeah)
I put work all day in everything I do
And there is a lot that's happening I swear I wish I knew
Sky forever blue, the day forever new, yeee
Mehn I wish that I could live forever

Hope you would miss me?
I got shawty on me trina pls me
Please don't leave me
When it gets hard pls be with me
Put my song on repeat
Cause! I'm the hottest boy in my city
Stand, when I'm sitting (when I'm sitting, when I'm sitting, yeah)
I got real people trina be me

Money money long
Money over love
And love make you invisible under the sun
Money give you company anytime I feel alone
I ain't even out there I'm just staying in my zone
Oh no no no, oh no no no
I keep to myself, even everything I know
Taking all this zaza meh it hurt me in my soul
We fly all day, we don't miss out

But tell my girl I love her when you see her
Rip osha mehn I feel am
In my family, I'm the only bread winner
And I pray one day amma pull up in a beamer
Pull up in a beamer puff puff pass
All my pain gone at last
When I drop bars bars bars
Little do you know, hard time don't last
Been depressed, so it kept me on a low down
Been so fast, so it's hard for me to slow down
Have been on the road now
Shutting this shows down
Well...
I guess you know now...
