

Power

Shallipopi

In this world I gat nothing to loose na, in this world I gat no one to choos
e now

You came to this life on your own, and I guarantee you will be leaving alone
o

Never turn a nigga down

Never turn the mf top nigga down

Cause you know I run this town

My citizens dey vex, all of them just dey frown (ah ah)

Power, power, never be abusing your power

I be making racks in an hour

I always keep close my two cala o

Power (hmmm) power, never be abusing your power

This Bitch came on me with her drama

I chased her away with my two cala o

This world is fucked up

This drugs and this weed got me locked me

Oh ye

Never cast a brother shut up

There dey hate, but there always say there love us

Help a brother nor dey form boss

Nor dey oppress me you nor be Jesus

There dey call when there need us

When we call there can never never pick up

In this life I learnt many things

Conquered many enemies

Drugs was the remedy

Do you know how it feels

To see a nigga drop

Killers took a shot

Rest in peace

Last week I see that nigga vossi bop

Many things, many many things dey my mind, steady struggling I dey hustle, I
dey grind

We gonna live forever and ever

We gonna make a difference

Cause family stick together

In this world I gat nothing to loose na, in this world I gat no one to choos
