

Breaking Apart

Shallou

And we could be happy set for life
We could break down the walls that hold me inside

And we could be happy set for life
We could break down the walls
Together me and you, are we out of luck?

Together me and you
Together me and you
Are you, are we out of luck?
Together me and you
Together me and you

We're breaking apart this love
Breaking apart this
Breaking apart this love
Breaking apart this
Breaking apart this love

We don't know where to go
We don't know where to go
We don't know where to go

We don't know where to go
We don't know where to go
We don't know where to go
We don't know where to go
And you're breaking apart this love
