

# Come Home

Shallou

The world is burning  
Just come home  
I can feel my body turning  
Come home  
Even though the world is burning  
Just come home  
I can feel my body turning

You want my love  
You want my love

I could never say, "This feels right"  
That's okay, this talk goes all night  
How can we see the light if we're both blinded?  
You want my love, there's only love for you

You feel uncertain  
Just come home  
Run away from all your curses  
Come home  
Even if you feel uncertain  
Just come home  
Run away from all your curses

You want my love  
You want my love

I could never say, "This feels right"  
That's okay, this talk goes all night  
How can we see the light if we're both blinded?  
You want my love, there's only love for you

And you're not all wrong  
You're all I see  
When the lights go down  
That's all I is  
But you're not all wrong  
You're all I see  
When the lights go down  
That's all I is  
And you're not all wrong  
You're all I see  
When the lights go down  
That's all I is

Lights go down  
That's all I is  
When the lights go down  
That's all I is
