

Gone

Shallou

Would you hold me tight
When we said, "Goodnight"?
Fall in love
Fall in love

I was on your side
When you couldn't fight
Off we go
Off we go

Where your love lies
That you hide away
Now, I know that
This is over

I'm a satellite
In your orbit
Did I move too close
For your comfort?

And, now, you're gone
And, now, you're gone
Gone

And, now, you're gone

I'm a broken piece
That you didn't need
Now, I know
How it goes

It's a guarantee
That I wouldn't leave
Off we go
Off we go

And where your love lies
That you hide away
Now, I know that
This is over

I'm a satellite
In your orbit
Did I move too close
For your comfort?

And, now, you're gone
And, now, you're gone
Gone

And, now, you're gone

And, now, you're gone
And, now, you're gone
Gone

And, now, you're gone
