

Good Together

Shallou

We couldn't love from a distance
It took some time but I realized
You and I are better off missing each other's eyes

You brought me flowers on our first date
She likes the same ones that I do
She met your mom on your birthday, mm

You look so good together
I can't even be mad
I'm so glad that you're happy

Like we were then
When I was yours
We were the summer and you're fallin for someone else
And that's ok
We were the summer and you're fallin babe
We were the summer and you're fallin babe

Like we were then
When I was yours
We were the summer and you're fallin for someone else
And that's ok
We were the summer and you're fallin babe

A box of your things is covered in dust and I can't bring myself to open it
Cause I wanna wear something that you once loved mm
Did you read the letter that I left ya
If I know you read it, then I'd feel alright
If I had to choose better weather, I'd choose you every time

You look so good together
I can't even be mad
I'm so glad that you're happy

Like we were then
When I was yours
We were the summer and you're fallin for someone else
And that's ok
We were the summer and you're fallin babe
We were the summer and you're fallin babe

You look so good together
I can't even be mad
I'm so glad that you're happy

Like we were then
When I was yours
We were the summer and you're fallin for someone else
And that's ok
We were the summer and you're fallin babe
We were the summer and you're fallin babe
