

## Here

## Shallou

We could fly together  
Feel alive again  
I can feel the pressure  
Heavy on my neck

Ooh the weight of this feeling  
Ooh this time

I want you here with me  
I want you here

Was a warmer winter  
Must've been a sign  
Fires growing bigger  
Happens every time

Ooh the weight of this feeling  
Ooh this time

I want you here with me  
I want you here
