

# Losing Focus

Shallou

Stay in the moment  
But you're not there  
Sad when I'm calling  
'Cause you're in love with somebody else

And I don't know what to say  
Why'd you run away?  
Now I don't know what to say  
To you, no

Pick it up  
When your world is falling  
Pick it up  
But we're losing focus

Pick it up  
But we're losing focus

Feel in the distance  
Can't see you now  
You're there when I'm dreaming  
And I imagine I'm reaching out

But I don't know what to say  
Why'd you run away?  
Now I don't know what to say  
To you, no

Pick it up  
When your world is falling  
Pick it up  
But we're losing focus

Pick it up  
But we're losing focus

But I don't know what to say  
Why'd you run away?  
Now I don't know what to say  
To you, no

Pick it up  
When your world is falling  
Pick it up  
But we're losing focus
