

Make Believe

Shallou

Killin' time no place to go
Everybody's feeling low
All alone in the streetlight glow
You fall into your head

Its all that you want, its all that you need
Take some time to make believe
Its all that you want, its all that you need
Just some time to make believe
Its all that you want

Hey la di da ah
Its all that you want

Killin' time no place to go
Everybody's feeling low
All alone in the streetlight glow
You fall into your head

Its all that you want, its all that you need
Take some time to make believe
Its all that you want, its all that you need
Just some time to make believe
Its all that you want

Hey la di da ah
Its all that you want
