

## Never Fade

Shallou

If it's all we have  
This love will never fade  
Love will never fade  
I know  
We can make this right  
It all just goes away  
All just goes away

So let it go

So let it go

If it's all we have  
This love will never fade  
Love will never fade  
I know  
When you hold me tight  
It all just goes away  
All just goes away

So let it go

So let it go

This love will never fade  
Love will never fade  
So let it go

This love will never fade  
This love will never fade  
So let it go
