

Save Some Room

Shallou

Say what you wanted to me
I was so far out of line
So far away
Save some room in your heart
For when I'm better now
When I'm better now

Say what you wanted to me
I was so far out of line
So far away
Save some room in your heart
For when I'm better now
When I'm better now

Save some room for me now
'Cause I've been falling down
Save some room for me now
'Cause I won't let you down
Save some room for me now
'Cause I've been falling down
Save some room for me now
'Cause I won't let you down
I won't let you down
